ABOUT *RumiMate*®

BioAg's *RumiMate*® is a revolutionary way of delivering essential nutrients and metabolites to your livestock as well as stimulating microbial activity in the rumen and stomach systems of animals.

The end result is enhanced digestion, improving animal production and animal wellbeing.

RumiMate® enhances the natural replenishment of digestive microflora that occurs through grazing or foraging. This fermented liquid tonic contains a rich source of vitamins, minerals, enzymes, amino acids and carbohydrates. *RumiMate*® helps to optimise rumen function which improves feed utilisation and nutrient conversion. It also aids stressed animals during feed changes, heat stress and transportation resulting in better healthier stock.

TYPICAL RATES OF APPLICATION

Inclusion rates (ml/L) – Lick ball, teat station, or secondary drip feeder.		Suggested mixing rates	
Animal	Situation	Starter	Maintenance
Cattle	Milking	20 ml	6-10 ml
	Beef and dry cows	15-20 ml	3-7 ml
	Calves	8-12 ml	3-4 ml
Sheep	Wethers	8-15 ml	4-5 ml
	Ewes	8-15 ml	4-5 ml
	Lambs	5-8 ml	2-4 ml
Horses	Studs or mares	16 ml	4-8 ml
	Fillies	10-12 ml	5-6 ml
	Colts	8 ml	2-4 ml
Pigs	Sows	20 ml	6-10 ml
	Piglets	3-4 ml	1-2 ml
	Weaners	6 ml	2-3 ml
	Growers	10-15 ml	4-7 ml

NOTE: The inclusion rate will depend on a range of factors including environmental conditions, feed availability & quality (e.g. pasture, grain, hay, silage). Use starter rates for day 1 up to day 3. Use maintenance rates for up to an additional 7 days. Apply by either oral drench, mixed with drinking water, or mixed with feed ration (5L of mix per tonne of feed). The above rates should be used as a guide only. BioAg does not warrant that these rates will necessarily produce the optimal or expected outcome. Application processes & practices may differ & require adjustments to the application rates to ensure optimum results.

DIRECTIONS FOR USE

- Administer *RumiMate*® by oral drench or mixing with drinking water or feed rations.
- Agitate before use.
- Discard diluted product after 96 hours.
- Do not add to primary water source.
- Do not apply continuously.

STORAGE & HANDLING

WARNING: For animal consumption only. Do not swallow. Avoid inhalation and contact with the eyes. Do not store mixed product. Store out of direct sunlight and below 30°C. Shelf life of 36 months when stored per directions.

Batch No / DOM:
